

How to complete the Swedish Working test form:

The best way to fill the form is digital by using this link:

<https://sphk.se/wp-content/uploads/sites/1/blanketter/SPHK/Meriteringsblankett%20s%C3%A4song%202022-2026.pdf>

[Blanketter – Svenska polarhundklubben](#)

Fill it, save it on your laptop, print it and do not forget to sign it!

Förare: Fill in first and last name of the musher.

Adress: Fill in the musher's home address.

Land: Fill in the musher's home country.

Mobil nr.: Fill in the musher's cellphone number including the country code!

Medlems nr i SPHK: Write your member number in SPHK. If you do not have a membership in SPHK, leave it empty. Membership is not required for foreign mushers.

Tävling: Tobacco Trail 150 RNB

Arrangör: Torne River sleddog club

Startdatum: Write the starting date of the race (YYYY-MM-DD).

Antal dagar/heat: Write 1.

Provtyp: Type of working dog test: Släde

Pulkastil: leave empty

Slädhundsstil: mark the dot

mark the dot next to DP20+

Ras: Write the correct abbreviation for your breed: SH (Siberian husky).

Nationsbeteckning: Write the nationality letters of the dog's registration number (can be found at the FCI pedigree)

Reg. nr.: Write the dogs registration number without the nationality letters.

Hundens namn: Write the dogs complete name according the FCI pedigree. The prefix (kennel name) must be included. Do not write any titles.

Chipnummer: Write the dog's entire chip number.

Underskrift av föraren: The musher's signature

Leave everything marked with yellow empty. The organization fills these parts!

It is the musher's responsibility that everything is filled in correctly regarding the registration number, chip number and pedigree name. If this is not correct, the dog or the entire team will

be disqualified!

To facilitate the registration in the secretariat; please scan the original FCI pedigrees of all non-Swedish registered dogs and sent by email to: sekreterare.sh@sphk.se

There will be staff in the secretariat to help you with the details of the form and checking the original FCI pedigrees.
